MINERAL OIL FREE | *Inks*

YOUR BEST SOURCE FOR MINERAL OIL FREE INKS

Squid Ink manufactures superior quality ink jet fluids designed for a wide variety of ink jet printing systems. Squid Ink’s line of mineral oil free (MOF) inks continue our tradition of offering hi-quality inks and fluids that are approved for use in Xaar 128 and 502 printheads, including Squid Ink’s CoPilot and AutoPilot family of printers.

ENVIRONMENTALLY AND PACKAGING FRIENDLY

Squid Ink’s 100% mineral oil free inks are designed as a direct replacement for petroleum-based inks for use on porous substrates. As a response to European food safety regulations, Squid Ink formulated inks with zero hazardous air pollutants and no hazardous ingredients. Our MOF inks reduce the risks associated with mineral oil ink contamination in the food packaging industry.

MORE SOLUTIONS FOR YOUR PRODUCTS

Being environmentally friendly doesn’t mean you need to sacrifice print quality. MOF inks from Squid Ink result in dark, reliable print for easy-to-read package coding and increased bar code scannability. Looking for colors? We’ve got you covered. Our MOF inks are available in a variety of colors including black, red, blue, and green.

LOWER DOWNTIME AND MAINTENANCE COSTS

MOF fluids join Squid Ink’s comprehensive line of ink jet inks that are filtered to .2 microns absolute, resulting in a product that will meet or exceed OEM specifications. MOF inks for porous substrates offers low-maintenance performance, ensuring maximum production uptime and print performance.
