# SEEING IS BELIEVING

## How much are pre-printed labels hurting your ROI? You might be surprised!

Squid Ink manufactures a full line of hi-resolution inkjet printers designed to print what you want, when, and where you want, all at a tenth of the cost of a pre-printed label! Bar codes, logos, lot numbers, traceability information, and more can be easily added to your primary or secondary products at speeds of up to 440 feet per minute.

- **Print speeds up to 440 feet per minute**
- **Hi-resolution printing of bar codes, logos, text, variable information and more**
- **Versatile printing solutions for one or more sides of your product**
- **Cost savings and increased flexibility over pre-printed labels**

- **Print what you want, when you want, and where you want**
- **Coding solutions ranging from .7" to 5.6" print area from a single print head**
- **Systems designed for printing on porous or non-porous cases or products**

Do you need to label your products in more than one location? Squid Ink has the solutions you need for adjacent panel printing on cases or both sides of the product.

Lower cost. High speed. Hi-resolution. Consistent and accurate coding. The benefits go on and on. **Contact Squid Ink today to arrange for a no charge print sample of your specific message. See the high print quality and find out how low the ink cost is for your message!**
